

ASHRAE REGION-AT-LARGE HOSTS TECHNICAL CONFERENCE IN VIENNA Application of Heat Pumps for Waste Heat Recovery

ASHRAE Region-At-Large Conference
March 11 - 12
Application of Heat Pumps for Waste Heat Recovery
TUEV Austria Forum, Walfischgasse 13, A-1010 Wien
Vienna, Austria

Ever since heat pumps were proven by the Second Principle of Thermodynamics to be viable thermal machines, they have been subject to theoretical study and practical applications. The importance has grown given their contribution to energy savings and reduction of green gas emissions.

The Vienna conference "[Application of Heat Pumps for Waste Heat Recovery](#)" shows a huge potential and wide application range of heat pump technology. Join your colleagues including manufacturers, designers, administration officials, academia representatives and specialists in a joint American-European-Asian forum.

The Plenary Session kicks off with opening remarks by Walid Chakroun – ASHRAE Region-At-Large director and regional chair and professor of Mechanical Engineering Department College of Engineering & Petroleum at Kuwait University and a welcome by Robert Gavriluc – president of the ASHRAE Danube Chapter.

Click [here](#) to see the full technical program featuring these sessions and more:

- Status and Outlook: Industrial Heat Pumps - Rainer Jakobs, RMJ Engineering, Breuberg/Germany
- Reversible Heat Pumps for Heating and Cooling in Residential and Commercial Buildings - Sven Staudt, Glen Dimplex GmbH, Kulmbach/Germany
- Waste Heat Recovery - An Opportunity for Heat Pumps - René Rieberer, Institute of Thermal Engineering, Graz University of Technology, Graz/Austria

The conference is organized by ASHRAE – Region-at-Large, with the support of DKV (Deutscher Kältetechnischer Verein), OEKKV (Österreichischer Kältetechnischer Verein), SKV (Schweizerischer Verein fuer Kältetechnik) and ASHRAE Danube Chapter.

Save money – register by February 8 and get Early Bird pricing!
Registration fee includes conference proceedings, lunch, dinner, and coffee break.

Member pricing - Registration for the conference is \$285 USD (€190) - Must be a member of ASHRAE, DKV, OEKKV, or SVK

Non member pricing - \$330 USD (€220)

(Prices after February 8 are \$330 (€220) Members and \$375 (€250) Non members)

[Register here](#) for the conference.

Visit the conference website [here](#).

Register Soon – Seating is Limited!

The conference will be held at TUEV Austria Forum. Click [here](#) for more information on accommodations at Artis Hotel. **The Region At Large would like to thank their conference sponsor – Chillventa 2010**
